

Policy for Updating the Speech-Language Pathology Graduate Website (2/22/2023)

The program in Speech-Language Pathology updates its website pages regularly when changes are made to the faculty (photos, bios, list of part-time faculty), course sequence, curriculum, scholarships, handbooks, admissions instructions and links, policy changes, etc. At a minimum, the changes occur 1) during or immediately after the annual CAA report; 2) in the Fall before the new cohorts begin; and 3) in the Spring prior to the sending out of admission letters. The Student Achievement Data information is updated in the summer with the CAA report. All changes are initiated and/or approved by the Program Director or the Clinic Director. The Administrative Assistant III Kayla McDuffie is currently responsible for the changes. When a change is made to the Program or Clinic handbooks, the prior versions are archived in the SLP Dropbox.
