

**SUSTAINABILITY
COUNCIL**
NEVADA STATE COLLEGE

Join the Sustainability Council!

Sustainability Council strives to promote environmental justice and accountability from actions taken by members through education, collaboration, and advocacy for thoughtful resource allocation.

Virtual meetings hosted every month at 3:30 pm from Zoom

AASHE Membership

The Sustainability Council became a member of the Association of the Advancement of Sustainability in Higher Education (AASHE) in July 2022.

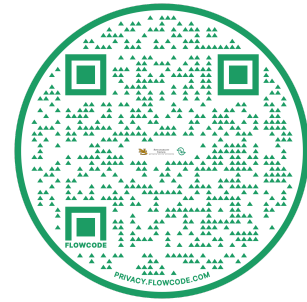

Our biggest involvement to date is their mentorship program in which we learn sustainable practices and how to implement them in our institution.

With the AASHE subscription there is opportunity for student involvement through informational webinars, toolkits, expos and news.

Access these resources by creating a free account [here!](#)

Collaborations

The sustainability council partners with multiple organizations to spread sustainable practices on campus, using a platform such as instagram to reach students and share information on sustainable practices and informational events.

Interpretive Signs

The implementation of the interpretive signs at NSC address agriculture; its consumption and production of water, energy, and food.

With the creation of the interpretive signs, there is information about sustainable integration at NSC through knowledge on native plants, renewable energy, and local food.
