

NEVADA STATE UNIVERSITY SCHOOL OF NURSING

Brittney Machin-Campos - Simulation Lab Coordinator, MPH, BS, CHSOS

Brittney is the Simulation Lab Coordinator for the NSU Simulation Program. She is the primary contact for questions related to scheduling, operations, and logistics within the skills and simulation environment. She oversees all part time simulation staff, standardized participants (actors), student workers in the lab environment, and volunteers. Brittney is a graduate of UNLV and recently received her master's degree in public health. Her primary roles include scheduling, inventory tracking, and ordering/maintenance of supplies and equipment, as well as facilitating the technical aspects of high-fidelity simulation experiences.

Brittney began her career in simulations in 2017 at CSCLV and then transferred to assist in opening the NSU simulation center in 2021. Brittney has experience in all modalities of simulation including low to high-fidelity simulations in the fields of medicine, nursing, and physical therapy. In addition, she oversees the NSU Standardized patient program at NSU which transitioned from CSCLV to NSU in the Fall of 2022. Brittney has assisted in developing and piloting over a dozen new simulation scenarios for NSU including pediatric, maternity, and community scenarios. She currently has a membership with SSH (Society for Simulation in Healthcare) since 2021 and is a Certified Healthcare Simulation Operations Specialist (CHSOS).
